

# International Energy Cooperation Program & Networking

	<b>Germany</b>	E.ON Energy Research Center, RWTH Aachen University International Energy Cooperation Program		<b>Switzerland</b>	Energy Science Center (ESC) - ETH Zurich
	<b>Australia</b>	Melbourne Energy Institute - University of Melbourne Royal Melbourne Institute of Technology - RMIT University		<b>UK</b>	Midlands Energy Consortium (MEC) Energy Research Accelerator (ERA) British Geological Survey (BGS) Midlands Innovation Aston University Loughborough University University of Birmingham University of Leicester University of Nottingham University of Warwick
	<b>Canada</b>	Faculty of Engineering - University of Alberta WindEEE Research Institute - University of Western Ontario			
	<b>Denmark</b>	Institute for Energy Technology - Aalborg University			
	<b>Japan</b>	Tokyo Institute of Technology (Tokyo Tech)			
	<b>Latvia</b>	Riga Technical University		<b>USA</b>	Carnegie Mellon University FREEDM Systems Center - North Carolina State University Arizona State University Florida A&M University Florida State University Missouri University of Science and Technology NC State University NSF Center for GRid-connected Advanced Power Electronic Systems (GRAPES)
	<b>Norway</b>	Centre for Renewable Energy - Norwegian University of Science and Technology			
	<b>Russia</b>	Energy Research Institute - Russian Academy of Science Faculty of Electrical Engineering - Warsaw University of Technology Moscow State Aviation Technological University			
	<b>Sweden</b>	Chalmers University of Technology Lund University			

At E.ON ERC, the International Energy Cooperation Program (IECP) is established and Memoranda of Understanding (MOUs) as well as Letters of Intent (LOIs) were signed with renowned universities worldwide that also focus on the field of energy to facilitate the exchange of ideas to learn from partners. Through the IECP Program, the center obtains important inputs about the activities of other research centers and their strategic aims.
